Dear Friends

On behalf of the organizing committee of the 15<sup>th</sup> Annual conference of The Cytometry Society (TCS) [[www.tcs.res.in](http://www.tcs.res.in)], India, it gives us immense pleasure to invite you for an academic extravaganza in the speciality of cytometry at the All India Institute of Medical Sciences (AIIMS), New Delhi. The programme is scheduled from 26th October –29th October 2023, with two days dedicated to the Annual Meeting of The Cytometry Society (28th & 29th October) preceded by multiple parallel hands-on workshops on 26th & 27th October 2023. This meeting will be a realistic opportunity for better understanding of the technology of Cell cytometry and its impact in medical and basic sciences. The objective of this meeting is to share the valuable research along with very valuable expert perspectives gathered while managing the clinical and research facilities in this arena. The guidelines, recommendations, and expert opinions presented here will be an amalgamation of the current information with the pre-existing knowledge.

Confirmed international faculty include Prof. (Dr) **Sindhu Cherian** (University of Washington, Seattle, WA, USA), besides, all the key opinion leaders at the National level will be participating in this event. The meeting is envisaged to provide a unique platform for medical practitioners as well as basic scientists and researchers to meet and exchange ideas and information on the most recent innovations, trends, and concerns with the experienced faculty of internationally recognized authorities in the fields of Cytometry. We hope that this meeting will disseminate the new information far and wide and benefit all the attendees.

The organizing committee of the 15th TCS Annual Conference & Workshops welcomes you one & all. We are extremely delighted to host this integrative event at our center and sincerely hope that you shall enjoy the scientific deliberations in similar enthusiasm as we have had in getting this together.
