Sub- TCS Travel Award Recommendation for attending the 16th Annual conference & workshop

Dear Sir/ Madam,

I am pleased to recommend Ms. Sheetal Mulay, Technical Officer working at ICMR-NITVAR for the TCS Travel Award. I have the pleasure of working with her since Year 2008 on various research projects involving flow cytometry related assays. She is an outstanding individual deserving of this opportunity. Ms. Sheetal Mulay has consistently demonstrated her commitment through her work using flow cytometers like BD FACSCount, BD FACS Calibur, Sysmex Cyflow & BD FACS Aria Fusion cell sorter.

This TCS travel award would provide Ms. Sheetal Mulay with a valuable opportunity to attend the conference & workshops and learn various new applications of flow cytometry. I am confident that this experience will not only enhance her knowledge but also help our organization in conducting experiments with better insights.

In conclusion, I wholeheartedly support Ms. Sheetal Mulay's application for the TCS Travel Award. I believe she will make the most of this opportunity and represent our institution with distinction.

Thank you for your time and consideration. Please feel free to contact me if you require any additional information

Thanking You.
Sincerely,

Dr. Ashwini Shete
Scientist 'E' & In charge Immunology & Serology
